

5 Year EUR AUTOCALL linked to Nomura, BNP, Deutsche Bank

10 chances to receive 30% profits per annum, without needing a strong share performance!

AUTOCALL BINARY is a 5-year maturity Certificate linked to Nomura, BNP and Deutsche Bank shares performance. Its dual aim is to:

- Make 30% profits per annum, without needing a strong share performance!
- Fully protect your capital if the drop of the least performer does not exceed – 30% at maturity.

A simple process:

- On issue date, each unit is issued at EUR 1,000
- At the end of each year, if the least performer level is above or equal to 100% of its initial level, early redemption will occur for each unit, with a 15% profit every semester, i.e. at 115% after 1semester, 130% after 2 semesters...
- At maturity, if early redemption did not occur, the certificate redemption will be at:
 - If the least performer is above or equal to 100% of its initial level: each unit will be redeemed at EUR 2500 (i.e. 100% + 10 times 15%) of its initial price. You therefore receive a 30% profit per annum
 - If the least performer is below 100% but at or higher 70% of its initial level, each unit will be settled in cash at 100% (i.e. EUR 1,000)
 - Otherwise : The certificate will be settled by cash delivery of EUR 1 000 * Least Performer Final Price / Least Performer Initial Price
